

**Vital Fish** is a cold extracted, high oil concentrate able to assist in the release of soil nutrients and stimulate soil fungi.

## Vital® Fish Benefits

**Vital Fish** improves plant root development and plant vitality.

- Increases earthworm and microbial activity in the soil.
- Improving soil biology with **Vital Fish** assists in disease suppression in soils by up to 50%.
- Cold processing retains natural bacteria and enzymes vital to the health of soil and the exchange of nutrients between soil and plants
- Contains a natural balance of minerals, vitamins and amino acids and is rich in omega 3 oils.
- It is an excellent additive to compost heaps to initiate the microbial processes.
- Is of consistently high quality at a price that fits into a profitable biological program.
- **Vital Fish** is ideal for all situations from home gardens to broad acre crops, intensive grazing and dairy operations, horticultural crops and viticulture.

## Application

| Crop         | Rate L/Ha       | Comment   |
|--------------|-----------------|---|
| To Soil      | 20 – 100 L/Ha   | Agitate and apply through 50 mesh. (NB: Smaller mesh should not be used as it screens out the nutrients.) Dilute 10:1 |
| Pasture      | 10-20 4 -6 L/Ha | Dilute 10: 1  |
| Foliar Spray | 5 – 15 L/Ha     | Dilute 100:1 For best results apply to foliar every 20 to 35 days.  |

Helicopter and fixed wing – apply neat

Boom spray or drip irrigation. (NB: The amount of water required is determined by the ground speed of the machinery)

Note: Can not be used with MCPA-B.

*\* Always check compatibility by doing a jar mix before adding to your spray tank.*

## Available in:

1000 litre shuttles, 200 and 20 litre drums.
