

Technical Data Sheet

Product: Black Urea™

Description: This product is a transition fertilizer. Black Urea™ is a specially formulated urea product coated with an organic complex to ensure maximum nitrogen retention and uptake when applied. This provides a good source of available N that remains stable upon application.

Typical Analysis:

Element	Amount	Units
Nitrogen	43	%
Phosphorous	0	%
Potassium	0	%
Sulphur	0	%
Calcium	0	%
Magnesium	0	%
Carbon	21	%
Boron	0	ppm
Cobalt	0	ppm
Copper	0	ppm
Iron	0	ppm
Manganese	0	ppm
Molybdenum	0	ppm
Selenium	0	ppm
Silicon	0	ppm
Zinc	0	ppm

Notice: Ausmin Australia test results are based on analysis by NATA Accredited laboratories. Ausmin takes due care to ensure that all analysis are accurate at time of publication. However due to natural variation of source materials Ausmin accepts no liability for minor variations in analysis that may occur between batches. Noting the above, Ausmin regularly tests products to ensure ongoing accurate information is provided to our customers.
