

## Technical Data Sheet

**Product:** Platinum Horti

**Description:** This product is a transition fertilizer. It combines Potassium Sulphate and Black Urea <sup>TM\*</sup> with available phosphate rock and activated natural minerals. This provides a good source of available N, P, K and S along with minerals and trace elements to build soil health. (\*Black Urea is a specially formulated urea product coated with humic acid to ensure maximum nitrogen retention and uptake when applied.)

### Typical Analysis:

Element	Amount	Units
Nitrogen	12	%
Phosphorous	4	%
Potassium	12	%
Sulphur	7	%
Calcium	8	%
Magnesium	0	%
Carbon	7	%
Boron	0.9	ppm
Cobalt	4.1	ppm
Copper	2.7	ppm
Iron	4320	ppm
Manganese	121.5	ppm
Molybdenum	0.1	ppm
Selenium	0	ppm
Silicon	2700	ppm
Zinc	10.8	ppm

*Notice: Ausmin Australia test results are based on analysis by NATA Accredited laboratories. Ausmin takes due care to ensure that all analysis are accurate at time of publication. However due to natural variation of source materials Ausmin accepts no liability for minor variations in analysis that may occur between batches. Noting the above, Ausmin regularly tests products to ensure ongoing accurate information is provided to our customers.*
